--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 13 November 2002 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.

**PERIOD FOR REPLY [check either a) or b)]**

- a) ☒ The period for reply expires 3 months from the mailing date of the final rejection.
- b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. ☐ A Notice of Appeal was filed on \_\_\_\_\_. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.
2. ☒ The proposed amendment(s) will not be entered because:
- (a) ☒ they raise new issues that would require further consideration and/or search (see NOTE below);
- (b) ☐ they raise the issue of new matter (see Note below);
- (c) ☐ they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
- (d) ☐ they present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: See Continuation Sheet.

3. ☐ Applicant's reply has overcome the following rejection(s): \_\_\_\_\_.
4. ☐ Newly proposed or amended claim(s) \_\_\_\_\_ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
5. ☐ The a) ☐ affidavit, b) ☐ exhibit, or c) ☐ request for reconsideration has been considered but does NOT place the application in condition for allowance because: \_\_\_\_\_.
6. ☐ The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.
7. ☒ For purposes of Appeal, the proposed amendment(s) a) ☒ will not be entered or b) ☐ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: \_\_\_\_\_.

Claim(s) objected to: \_\_\_\_\_.

Claim(s) rejected: 1-6.

Claim(s) withdrawn from consideration: \_\_\_\_\_.

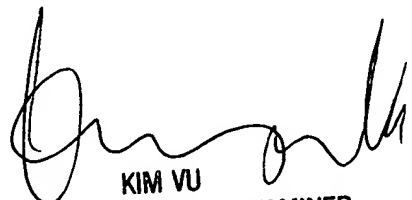

8. ☐ The proposed drawing correction filed on \_\_\_\_\_ is a) ☐ approved or b) ☐ disapproved by the Examiner.
9. ☐ Note the attached Information Disclosure Statement(s) (PTO-1449) Paper No(s). \_\_\_\_\_.
10. ☐ Other: \_\_\_\_\_

Continuation of 2. NOTE: Applicant states: "the Examiner asserts on page 9 of the Office Action that the personal computer 3 used in the picture image filing device of Fukada has a monitor as an output unit for outputting an image file being recorded on the second recording medium by the recording controller. Applicant notes, however, that the monitor of the personal computer 3 in Fukada cannot output (display) an image represented by the image file while the image file is being recorded on the second loadable and removable recording medium".

Examiner agrees with applicant that the monitor is just a mean for displaying the data and the monitor cannot output the data, however, examiner respectfully traverses the applicant suggestion of withdrawal the rejection of claims 3 and 6 because of these reasons:

As disclosed by Fukada: a second storage means outside the digital camera means a server in a laboratory, a hard disc of a personal computer, or the like (Col. 3, lines 21-24). Fukada further makes a strongly suggestion: the picture image filing device specifically means, for example a printing system having the above function and set in a laboratory, a personal computer, a work station or the like (Col. 4, lines 1-5). Thus, the computer as disclosed by Fukada could read and record the image data from the digital camera (as discussed in the action), and "the printing system sets in a laboratory, a personal computer..." as suggested by Fukada indicates the personal computer or the server could write or output the image data to the printer for printing or, displaying via the monitor as in FIG. 1. In addition, a conventional computer could output the image data to a monitor or a printer for displaying, or printing via I/O device. Therefore, the rejection of claims 3-6 is maintained as discussed above and in the office action.

New claims 7 and 10 recite the steps of (1) reading out a last file-number... (2) incrementing the read out... (3) changing a file name..., which raise new issues that would require further consideration and search.
